# Mosaic Creator

unique mosaic genarator

Intro

Mosaic Creator is professional mosaic tool. You can create your own picture mosaic or tile mosaic in few steps. It allows you to create a large regular mosaic patterned images made of many small cells. Mosaic Creator allows create picture mosaics. Also it can render good images using least image collections with fine color enhance.

Specific for Mosaic Creator are optional non rectangular pattern cell shapes (puzzle shape, triangle, hexagon, etc). Mosaic Creator includes pattern shape editor for user defined patterns (only in professional version). You can start create mosaics only with one image. You must select cell images, source image, destination image size and pattern type. You can enhance the rendering process by fine color modifying the cell images, and finish up the resulting mosaic image by adding a cell borders. There are not limitation of number of cell images and output mosaic file size. The Mosaic Wizard simplifies the process of mosaic definition. Mosaic Creator can prepare thumbnails with clickable image map.
